PROJECTS

Movie App | Link - https://hollywoodapp.netlify.app/   *2024 - PRESENT*

The movie app is a comprehensive platform designed to help users discover, explore, and enjoy movies from various genres, languages, and countries. With a user-friendly interface and powerful features,the app aims to provide an immersive movie watching experience and assist users in making informed decisions about their movie selections.

- Developed a full-featured movie application using [Technology Stack: e.g., React JS, JavaScript, etc.].
- Implemented core functionalities, detailed movie information, user reviews, and personalized recommendations
- Integrated third-party APIs (e.g., TMDB, OMDB) to fetch real-time movie data, including ratings, cast, trailers, and more.
